FOREWORD

FACT BOOK 1987-88 is designed to provide timely, accurate and comparative data about the State University System of Florida. It is intended for use by individuals interested in higher education in Florida. Our primary goal is to present summary information in a form which is easy to understand. Information is provided in the form of tabular displays, charts, graphs, and a glossary of terms and abbreviations.

Data in the FACT BOOK were gathered from a variety of sources. The primary source documents were the State University System Data Tapes, the Higher Education General Information Survey Reports (HEGIS), annual financial statements, operating budgets, and reports required by the United States Office for Civil Rights.

Every effort has been made to ensure that the data contained in this document is accurate and easy to use. Prior to republication of portions of this document or use of its data in policy development or analysis, we recommend you contact our staff to ensure that you receive any post-publication changes. In order to help this communication, we have placed the initials of the Board of Regents Office responsible for the data presented in the lower left corner of each table or figure. The initials are expanded in the glossary. In addition, a directory of Board of Regents Staff by responsibility has been included.

STATE UNIVERSITY SYSTEM OF FLORIDA

The State University System of Florida consists of nine state universities, and the Board of Regents and its staff. The System was established formally in 1905, when the Florida Legislature enacted the Buckman Act. This legislation consolidated various post high school institutions into three, under a Board of Control. After consolidation, the System included the University of the State of Florida in Gainesville, Florida A&M College and Florida State College for Women in Tallahassee. As Florida's economy developed in the post-war era, the desire for education grew significantly throughout the state. The demand for advanced instruction within commuting distance of home led to a period of expansion. Between 1956 and 1965 six additional institutions were established. In order to enhance the coordination of this growing system, the Florida Legislature established the Board of Regents as the single governing board of the state supported universities.

The Board of Regents was established in 1965, with nine members. Today, that number has grown to thirteen. The membership includes eleven Regents appointed by the Governor for six-year terms, a student Regent appointed for a one-year term, and the Commissioner of Education, ex-officio. The Chancellor is the Chief Administrative Officer of the Board of Regents and of the State University System. The Board and Chancellor are supported by the Board of Regents staff in Tallahassee, organized along major functional lines: The Office of the Chancellor, including Equal Opportunity Programs, Internal Management Auditing, General Counsel, Corporate Secretary; the Office of Academic Programs, including program review, academic planning, and research services; the Office of Budgets and Financial Services, including business and financial operations, construction administration, personnel programs, labor relations, and office support services; and The Office of Public Affairs, including the Director of Public Information, all governmental relations activities of the Board and information resource management.

By statute, the Board of Regents prepares the Legislative Budget Request, selects university presidents and makes policy. Its responsibilities include adoption of systemwide rules and policies, planning for future needs of the system, evaluating and coordinating program development, among others. The Board is analogous to a Board of Directors of a corporation. The Chancellor is analogous to its chief executive officer. Responsibility for the operation of each institution is delegated to the universities. In the state organizational structure, the Board of Regents is placed within the State Department of Education as "the division of universities." The State Board of Education is charged with the responsibility of approving or disapproving all rules adopted by the Regents and adopting and transmitting the State University System Legislative Budget Request.

Today the State University System of Florida consists of nine institutions: in Gainesville, the University of Florida; in Tallahassee, Florida A&M University and Florida State University; in Tampa, the University of South Florida; in Boca Raton, Florida Atlantic University; in Pensacola, the University of West Florida; in Orlando, the University of Central Florida; in Jacksonville, the University of North Florida; in Miami, Florida International University. Twelve off-campus centers are located throughout the state. In addition, the University of Florida Institute of Food and Agriculture Science (IFAS) administers seven agricultural research and education centers, as well as sixty-nine county cooperative extension programs. The University of Florida and the University of South Florida operate medical schools. UF Provides internship and residency programs on campus at Shands Teaching Hospital. USF operates the Moffit Cancer Center and the Shrine Hospital, on campus.

The system overall received a significant infusion of resources from the state Legislature, amounting to somewhat larger than 13 percent. The system also continues to be involved in one of the most active capital construction programs in the nation. The number of endowed Eminent Scholars chairs continued to rise. The Eminent Scholars program continues to be one of the most significant and innovative programs for building public-private partnerships in the nation. It also continues to be emulated by Legislatures throughout the nation.

[1] Approved by the Board of Regents November 30, 1979

[2] The University of Florida and Florida State University are responsible for providing programs and services on their respective campuses and in their local communities. Further, they are responsible for providing, on a statewide basis, such programs and services which cannot be provided by the other State University System institutions. The activities of the cooperative extension service are the responsibility of the Institute of Food and Agricultural Sciences of the University of Florida without regard to the geographical area in which those activities occur.

[3] By agreement between the Presidents of USF and FAU and the Superintendent of the Hendry County Public School System.

[1] Engineering and Industrial Experiment Station, UF. This entity moved to Educational and General in 1988-89. [2] Institute of Food and Agricultural Science, UF. [3] Also includes Shands Teaching Hospital, Veterinary Medicine, and Allied Clinics at UF. In 1980-81 Shands Teaching Hospital became a private non-profit hospital and is no longer associated with the SUS. General Revenue monies are used to contract different programs for services previously rendered by Shands when it was part of the SUS. [4] Salary increases and other separate appropriations are included. [5] For the year 1979-80 and 1980-81 there were numerous additional appropriations and transfers made after the Appropriations Bill was approved by the Governor. To more accurately show appropriations for these two years, figures were taken from the Governor's Appropriation Ledgers dated June 30, 1980 and August 31, 1980 respectively. Some of the 1980-81 figures have been revised to reflect changes made after the 1979-80 FACT BOOK was printed.

(2)-Department of Health & Human Services (DHHS) approves the indirect cost rates which will be paid by all Federal agencies.
(3) Although the established rate is based on salaries, wages and fringe benefits, the majority of indirect costs recovered are based on a percentage of 8% of modified direct costs.
(4) Data reported is the percentage of modified total direct costs.
(5) Data reported is the percentage of salaries, wages and fringe benefits.
